

# Oceans of Possibilities: Saving the Seas with Swedes

Join ASHM for our 2022 Summer Library Program  
to explore the science of ocean sustainability efforts!

This summer ASHM presents an exciting outreach program about ocean sustainability. Families will learn about the effects of pollution and climate change on the seas and what they can do to help! We will look at the work of Swedish scientists and activists like Greta Thunberg. This program is filled with hands-on STEAM activities and a take-home recycled craft. Book this in-person program today!

**Target Age:**  
Elementary (K-6th)  
Maximum of 30 participants

**Library Cost:**  
\$100 per program  
(Additional travel fees may apply)

**Program Length:**  
60 Minutes

**Contact:**
